

Case Study

Shifting Data Platform to Snowflake for Leading American Coffee and Beverage Company

The client is a US-based beverage company selling coffee, sodas juices, and other soft drinks.

## Challenges

- Transform and modernize the existing data platform through mindful migration and frictionless integration of data with the acquired company
- Consolidate a variety of data types (POS, trade promotion, financial, demand management, master data) from multiple data sources (SAP BW, Azure SQLDB, Oracle Demantra, SAP ECC) onto a unified cloud data platform
- Smoothly re-engineer the existing architecture to help facilitate both hot and cold business data entities into a unified orchestrated view
- Enable self-service capability for business by implementing adequate data management and augmenting the reporting services for insightful analysis

## LTIMindtree Solution

- Smart lift and shift migration of existing on-premise SQLDB models by consolidating data from various sources and other external files to Snowflake-based cloud data platform
- Redesigned and re-engineered data objects from SAP BW application having complex multi-level views to move it into Snowflake data platform
- ☑ Data ingestion using Informatica Cloud and SnowSQL conserving business logic
- Integration of both entities' master data with a global view, enabling smooth transition to Snowflake, leveraging Canvas PolarSled platform, and a suite of tools to automate the workload and governance

- Financial data consolidation from different source systems by integration of Cognos TM1 Data, leveraging the ELT approach for EPM reporting.
- Ensure data validation by exercising the spot and comparative testing to maintain business continuity on Snowflake.
- Built a semantic data layer on top of snowflake using Atscale to enable self-service capability for business teams.

## **Key Benefits**

30 - 50%

reduction in IT spend by providing better and efficient data platform 2X

improvement in the overall business reporting

## Faster Transformation

Enhanced computation power, leveraging the high scalability of Snowflake, helping both the companies with a smooth and successful merger

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 84,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree – a Larsen & Toubro Group company – combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
