LTIMindtree Alcazar FinOps

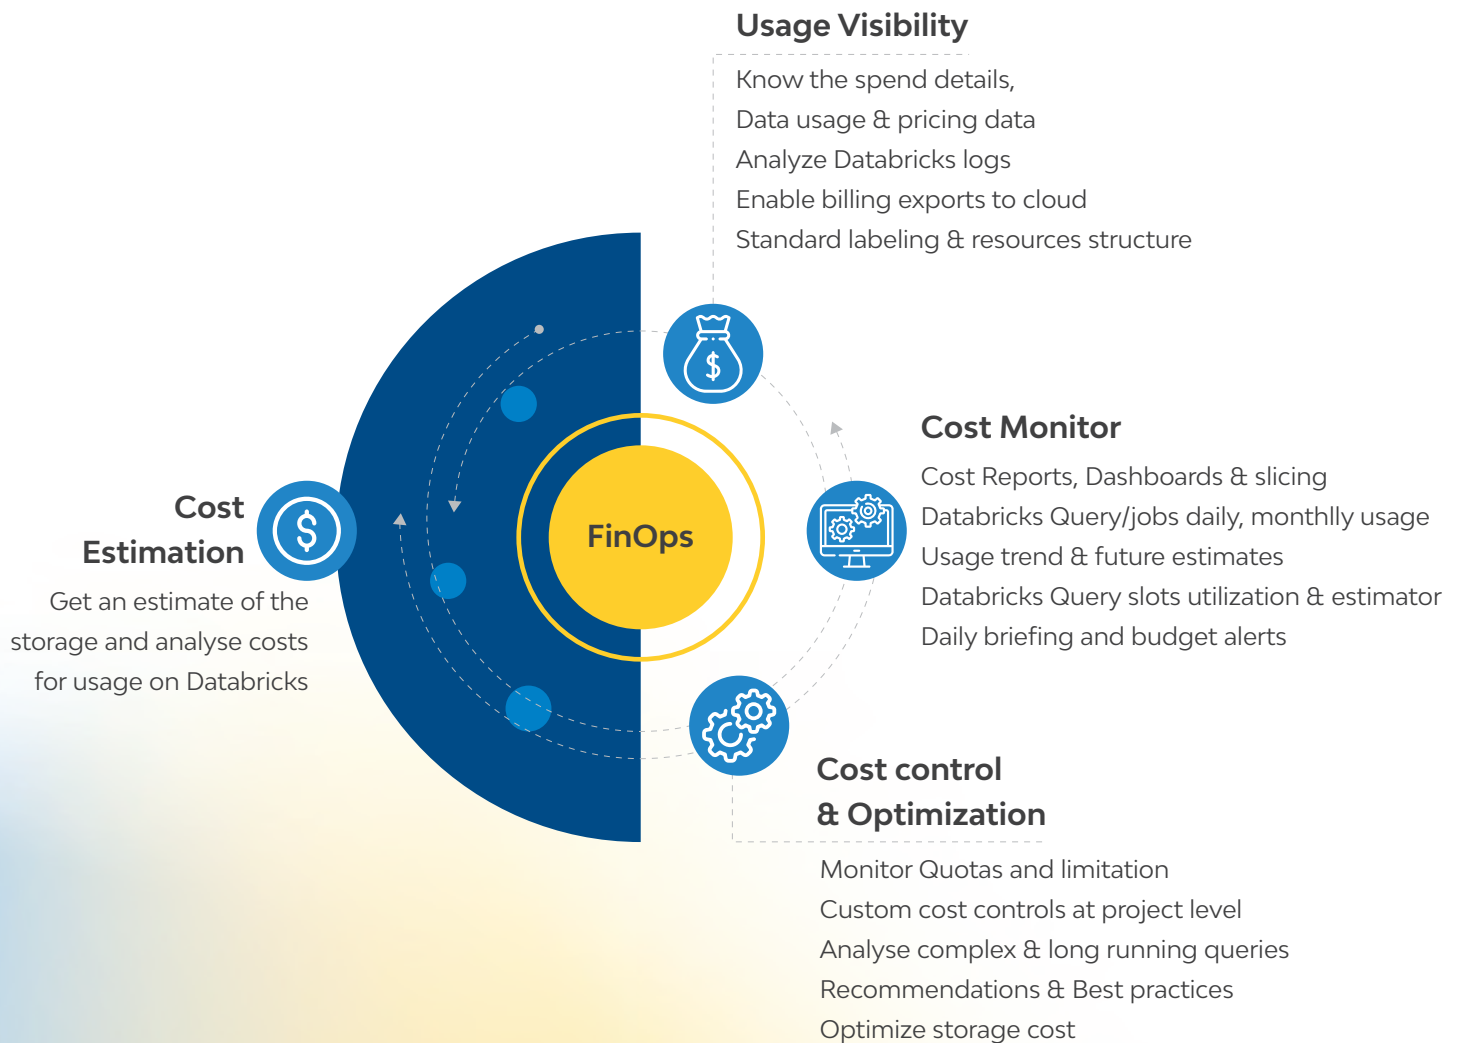

The Lakehouse Castle

Monitor and optimize Databricks platform.

In today's world, data explosion is a major phenomenon that poses challenges to traditional on-premises Datawarehouse platforms. And hence, organizations are looking at Databricks as one of the alternatives that provides greater flexibility and cost-effectiveness.

Databricks' self-service features provide greater flexibility to end-users, however, a lack of technical knowledge could result in inefficient data processing and higher platform cost.

FinOps, LTIM's LTIMindtree Alcazar module, an accelerator for the Databricks platform, provides the ability to continuously monitor and identify opportunities to optimize data processing and platform administration, resulting in direct cost benefits.

Key Benefits

Cost Saving:

Identification of cost-incurring factors and recommendations for optimization.

Easy Administration:

UI-based easy administration of Databricks cluster.

Reduced Efforts:

Automated monitoring and logging of Databricks platform usage.

Cost Predictions:

Future cost estimates for budget management.

Value Proposition

Reduced efforts

Cost Savings

Easy Administration

Easy-to-use UX/UI

(*) – Achieve overall 40-60% automation across migration value chain depending on the current environment.

LTIMindtree is a global technology consulting and digital solutions company that enables enterprises across industries to reimagine business models, accelerate innovation, and maximize growth by harnessing digital technologies. As a digital transformation partner to more than 700 clients, LTIMindtree brings extensive domain and technology expertise to help drive superior competitive differentiation, customer experiences, and business outcomes in a converging world. Powered by 84,000+ talented and entrepreneurial professionals across more than 30 countries, LTIMindtree — a Larsen & Toubro Group company — combines the industry-acclaimed strengths of erstwhile Larsen and Toubro Infotech and Mindtree in solving the most complex business challenges and delivering transformation at scale.
